

DIRECTIONS FOR USE

Situation	Pest	Rate	Critical Comments
Termite nests (trees, stumps, posts, power or utility poles, mounds, cavities) Termite when nest location unknown (interior residence and infestation wall cavities)	Termites including subterranean termites (eg. <i>Schedorhinotermes aegyptius</i>) Soil termites (eg. <i>Reticulitermes flavipes</i>) Drywood termites	The self-pressurised container dispenses Premise Foam at a rate of approximately 0.1 mL of foam per 0.2 litres of expanded foam per second.	Shake can for approximately 5 seconds before use. Where applicable, locate centre of nest using temperature probe and drill a hole into the approximate centre of nest. Insert Premise Foam Tube into hole singly and depress activator. A single plug (30 seconds) injection is more effective than several short injections. For termite removal from the nest, drill holes into infested wood and inject foam. Progressively drill and inject foam until the entire nest is covered. Premise Foam will emerge from other holes. If it is necessary to seal holes, use a suitable caulking compound after application. When applied into a termite gallery system or into a termite infestation, the foam expands to thoroughly cover hidden or difficult to reach areas and contacts insects deep within these galleries and voids. To minimise expansion run-off of foam out of dispenser tube after use, continue to hold the application tip firmly against the injection point for a full 5 seconds after releasing the dispenser trigger; this will allow product in the application hose to fully expand and enter the target area. Seal holes in trees with a suitable caulking compound after application.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

Exclusion of Liability
This product must be used strictly as directed and in accordance with all instructions appearing on the label and in other reference material. So far as it is lawfully able to do so, Bayer CropScience Pty Ltd accepts no liability or responsibility for loss or damage arising from failure to follow such directions and instructions.

GENERAL INSTRUCTIONS
DO NOT use this product as the sole source of control for active, structural infestations by subterranean termites. It is not a substitute for mechanical alteration or soil treatments designed to provide protection of the structure. For active, structural infestations by subterranean termites, this product can only be used to supplement a soil-applied termiticide (e.g. Premise Termiticide), a termite bait system or other product registered as a sole source for termite management.
This product is intended as a supplemental tool to kill subterranean termites that are found in above-ground and other locations.
Spot treatments with Premise Foam can be made, as a temporary control measure, in advance of the date when final (complete) treatment of the structure with a soil applied termiticide or other termite management system is completed.
Spot treatments with Premise Foam can also be made to drywood termite infestations.
PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT
Do NOT contaminate streams, rivers, or waterways with this product or used containers.
STORAGE AND DISPOSAL
Keep out of reach of children.
PRESSURISED DISPENSER. PROTECT FROM SUNLIGHT AND DO NOT EXPOSE TO TEMPERATURES EXCEEDING 50°C. DO NOT PUNCTURE OR INCINERATE THIS CAN, EVEN WHEN EMPTY.
Dispose of can by putting in the garbage or leaving it at an appropriate metal recycling collection point.
SAFETY DIRECTIONS
Will irritate the eyes and skin. Avoid contact with eyes and skin. If product on skin immediately wash area with soap and water. If product in eyes wash it out immediately with water. Wash hands after use.
When using the product, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow-length PVC gloves and face shield or goggles. After each day's use, wash gloves, face shield or goggles and contaminated clothing.

FIRST AID
If poisoning occurs contact a doctor or Poisons Information Centre (phone 13 11 26).
